EDUCATION

Govt. Polytechnic College Leh,
3 year Diploma in Computer Engineering — 87%

March 2021 - September 2023

I got 92% in 4th semester. I am able to achieve these marks not because I memorize everything but because I prefer going behind knowledge that I am curious about.

Lamdon Model Senior Secondary School Leh,
Non-Medical — 70%

May 2019 - October 2021

I like learning about science behind things rather than memorizing history so I choose non-med in 10+2.

PROJECTS

Minor Project — College Website

I built this Website using HTML and CSS. I use animation and dropdown like futures in this project.

Major Project — Pong Game

I built this Game using HTML, CSS and JavaScript. In this project I also use an AI system which controls the Opponent's Paddle.

Supermarket Billing Project

I built this Project using C++. There is administrator and buyer, where administrators can add, modify or/and delete products from the Database. And buyers buy the product and can't change the Database.
